Pima Dental Study Club
PO Box 65832, Tucson, AZ 85728

Greetings, Pima Dental Study Club.

It is Prescription Lab Compounding Pharmacy's privilege to sponsor your CE meeting on Wednesday, September 11, 2019.

As Tucson's premier compounding pharmacy, we take great pride in forming collaborative relationships with practitioners in Southern Arizona. These relationships are the key to building a functional Triad of Care, involving the pharmacy, prescriber, and patient. We look forward to building relationships with many of you.

Some of the ways we can help you are:

- Alternative dosage forms for patient who have difficulty swallowing tablets or capsules
- Compounding medications that are backordered or unavailable (Tetracycline shortage)
- Compounding mucosal-adhesive anesthetic gels to lessen pain of injections
- Anesthetic solutions to be used before deep scaling/prophylaxes
- Sedation dentistry solutions

Please reach out to us by phone or e-mail with any questions you may have. Additionally, please let us know if there is any topic about which you would like more information about at the meeting in September.

Sincerely,

Wes Moulton
